**Abstract**

*Literature is a record of human life experience either his or her own experience or others. There are three genres of literature, fiction, non-fiction, and poetry. The movie is included in fiction genre. Movie is one of the most popular fiction. The purpose of movie is to entertain the audience and to be able to take positive lessons from movie. The writer focuses on post-traumatic stress disorder of main character in Every Thing Will Be Fine movie. In Every Thing Will Be Fine movie tells about main character of Tomas Eldan. Descriptive qualitative method is used in this research. In analyzing post-traumatic stress disorder in this movie, the post-traumatic stress disorder is divided into three parts: the types of post-traumatic stress disorder, the causes of post-traumatic stress disorder, and the effect of post-traumatic stress disorder. Before analyzing post-traumatic disorder, it needs to summarize the story and analyze the main character. The results are got from the types, the causes and the effect of post-traumatic stress disorder that happened to the main character of this movie, Tomas Eldan. All parts of post-traumatic stress disorder can be seen after the main character got the accident that occurred while he was driving and waiting twelve years examining the effect of the tragedy on his life and traumatized him. So the post-traumatic stress disorder is happened in this movie, such as self-injury, suicidal thoughts and behaviors, alcoholic use, and depression.*

**Keyword:** Main Character, Movie, Post-Traumatic Stress Disorder

**Abstrak**

Sastra adalah catatan pengalaman kehidupan manusia baik atau pengalamannya sendiri atau lainnya. Ada tiga genre sastra, fiksi, non-fiksi, dan puisi. Film termasuk di dalam genre fiksi. Film adalah salah satu fiksi yang paling terkenal. Tujuan film adalah untuk menghibur penonton dan untuk bisa mengambil pelajaran positif dari film. Penulis berfokus pada gangguan tekanan pasca traumatik pada karakter utama dalam film Every Thing Will Be Fine. Dalam film Every Thing Will Be Fine bercerita tentang karakter utamanya yaitu Tomas Eldan. Metode yang digunakan adalah metode deskriptif kualitatif. Ada empat masalah, seperti Tomas Eldan yang di gambarkan, tipe-tipe gangguan tekanan pasca traumatik pada Tomas Eldan, penyebab-penyebab gangguan tekanan pasca traumatik pada Tomas Eldan, dan efek-efek gangguan tekanan pasca traumatik. Hasilnya adalah Tomas Eldan di gambarkan, seperti seorang pria ramah, pria bertanggung jawab, pria pekerja keras, pria damai, pria demonstratif, pria yang mengorbankan

diri, pria takut, dan pria depresi. tipe-tipe gangguan tekanan pasca traumatik pada Tomas Eldan, seperti PTSD komorbid, PTSD kompleks, trauma akibat kendaraan, dan penyiksaan, penyebab-penyebab gangguan tekanan pasca traumatik pada Tomas Eldan, seperti kecelakaan serius, sebelumnya mengalami kecemasan atau depresi, dan kecelakaan serius atau cedera, dan efek-efek gangguan tekanan pasca traumatic pada Tomas Eldan, seperti cedera diri, pikiran dan perilaku bunuh diri, penggunaan alkohol, dan depresi.

**Kata Kunci:** Karakter Utama, Film, Gangguan Tekanan Pasca Traumatik.

## **I. INTRODUCTION**

**N**owadays, many people like literature. Literature is a record of human life experience either his or her own experience or others. There are three genres of literature; fiction, non-fiction, and poetry. The movie is included in fiction genre.

Movie is one of the most popular fiction. Movie has many genres such as drama, action, comedy, horror, romantic, costume, animated, and thriller. The purpose of movie is to entertain the audience and to be able to take positive lessons from movie. One of movie genre is drama. Drama is a serious movie. "Every Thing Will Be Fine" movie is included in drama genre.

The writer chooses "Every Thing Will Be Fine" movie because this movie discusses about post-traumatic stress disorder. This movie tells about the story of Tomas Eldan who had experienced trauma as a result of crashing a child, (Christopher) twelve years ago. Furthermore, this movie tells about a psycho-

logy problem experience trauma which is called post-traumatic stress disorder.( Nutt, David J, Murray B. Stein, and Joseph Zohar, 2009) says Post-traumatic stress disorder is an anxiety disorder defined by the co-occurrence in survivors of extreme adversity re-experiencing avoidance and hyperarousal symptoms, unlike most other mental disorders, the diagnosis of PTSD relies on associating concurrent symptoms with a previous traumatic event.

Post-traumatic stress disorder is a kind of mental damage caused by a long-lasting consequence of incredibly traumatic events that overwhelm a person's ability to cope. Post-traumatic stress disorder can be caused by traumatic events in the past which are still lasting and remaining in memory. (Friedman, Matthew J, Dan J. Stein, and Carlos Blanco, 2011) states Post-traumatic stress disorder is a condition manifest during an individual's interaction with interpersonal and physical environments; in essence, an information-processing disorder. It means that post-traumatic

stress disorder is a situation where someone in real life conditions for interaction with environment impairs interpersonal and physical. Post-traumatic stress disorder discusses about attitude of trauma exist in someone's soul. The attitude of traumatic can be occurred to anyone who has ever experience traumatic events in the past and can be caused severe emotional disturbances. (Titolo, Tim. 2012) tells there are ten types of post-traumatic stress disorder, such as: vehicular traumatic, industrial traumatic, criminal assault, sexual assault, child sex abuse, terrorism, Torture, holocaust, war trauma, and natural or man-made disasters. (National Center (2016) states there are five main types of post-traumatic stress disorder, such as: 1. Normal stress response 2. Acute stress disorder 3. Uncomplicated PTSD 3. Comorbid PTSD 5. Complex PTSD.

There are many things that cause post-traumatic stress disorder, (Goulston, 2008) says there are nine causes of post-traumatic stress disorder, such as: natural disaster, witnessing a killing or serious injury, child's life-threatening illness, sudden unexpected death of family member or friend, shooting or stabbing, serious accident or injury, sexual

assault other than rape, severe physical assault, rape.

Post-Traumatic Stress Disorder of Main Character in *Every Thing Will Be Fine* Movie is one of the most interested movie to be analyzed because this movie is not only get one of the nomination movie awards from New York Times but give us the details of the movie as well. In other hand, by analyzing post-traumatic stress disorder in this movie, it can be as a bridge to understand and comprehend English with fun way.

## **II. THEORETICAL FOUNDATION**

### **2.1 Definition of Post-Traumatic Stress Disorder**

Post-traumatic stress disorder is known as a situation where someone who has ever experience traumatic events in the past and still shadowing until now. There are several definitions of post-traumatic stress disorder by some experts:

According to Friedman, *et al* (2011: 42), "Post-traumatic stress disorder is a condition manifest during an individual's interaction with interpersonal and physical environments; in essence, an information-processing disorder." It means that post-traumatic stress disorder is a situation where someone in real life conditions for interaction

with environment impairs interpersonal and physical.

Argued by Nutt, *et al* (2009:1), "Post-traumatic stress disorder is an anxiety disorder defined by the cooccurrence in survivors of extreme adversity reexperiencing avoidance and hyperarousal symptoms, unlike most other mental disorders, the diagnosis of PTSD relies on associating concurrent symptoms with a previous traumatic event." It can be assumed that post-traumatic stress disorder is an anxiety disorder experienced by someone as a result of traumatic events in the past.

## **2.2 Symptoms of Post-Traumatic Stress Disorder**

Argued by Titolo (2012), said that there are ten types of post-traumatic stress disorder, such as:

1. Vehicular traumatic is no denying that a vehicle weighing several thousand pounds can cause injury, trauma, and even death. That is typical in cases of car accidents.
2. Industrial traumatic is industrial settings-factories, oil refineries, construction sites, and other blue collar work place have a high potential for accidents.
3. Criminal assault is statistics of criminal assault are staggering when a person is attacked, beaten or hit, a trauma occurs.
4. Sexual assault is actual or attempted sexual contact, exposure to ageinappropriate sexual material or environments, sexual exploitation, unwanted or coercive sexual contact.
5. Child sex abuse is a form of child abuse in which an adult or older adolescent uses a child for sexual stimulation.
6. Terrorism is the unlawful use of force and violence against person or property to intimidate or coerce a government, the civilian population, or any segment thereof, in furtherance of political or social objectives.
7. Torture is the act of deliberately inflicting severe physical or psychological pain and possibly injury to an organism.
8. The Holocaust is a unique event in twenty century history.
9. War trauma is exposure to acts of war trauma including incidents such as bombing, shooting, looting, or accidents that are a result of terrorist activity as well as actions of individuals acting in isolation if they are considered political in nature.

10. Natural or man-made disasters is major accident or disaster that is an unintentional result of a man-made or natural event.

### **2.3 Causes of Post-Traumatic Stress Disorder**

National Association for Mental Health (2014:6), there are sixteen causes of post-traumatic stress disorder, such as:

1. A serious accident, for example: a car crash.
2. An event where you fear for your life

From the picture above describes about depression where Tomas shows depression about the accident. Tomas feels depressed, really down, traumatized by crashing a child (Christopher), and suffer severe emotional disturbances.

## **V. CONCLUSION**

In *Every Thing Will Be Fine* movie tells about main character Tomas Eldan who had a traumatic experience that is caused of crashing a child (Christopher) twelve years ago. Furthermore, this movie tells about a psychology problem experience trauma which is called post-traumatic stress disorder. Post-traumatic stress disorder theory explains about a behavior of someone who caused by traumatic events in the past that lead to disruption of mental health and emotional disturbances.

Tomas Eldan is a friendly man. He has so many friends and likes to gather with them. Besides, he is also responsibility man. He is responsible for the acts that he did to a child (Christopher) who he crashed on the road. Then, he is a hard worker man. He works as a writer. He works hard to make good novels which are liked by a lot of people. He always seemed to assume no problem whatsoever. In showing his feeling, he is a demonstrative man. He proves his love for Ann, for want to marry her, and live together as a family with Ann, Mina, and his father. He shows as a self-sacrificing man. He is willing to sacrifice himself to help others affected. On the other hand, he is also fearful man. He

feels fearful, guilty, and panic because he crashed the child (Christopher). The last one, he is a depressed man. He feels depressed and trauma because of the accident.

Tomas Eldan is experiencing post-traumatic stress disorder. In post-traumatic stress disorder, there are four types of post-traumatic stress disorder that correspond to those experienced by Tomas Eldan. The first type is comorbid PTSD. In this type, Tomas Eldan feels guilty about the accident, so he injures himself. The second type is complex PTSD. He feels depressed and panic. He drinks alcohol and injures himself to get rid of his traumatic. Then, his experiencing in the third type is vehicular traumatic. He recalls having crash a child (Christopher) in his car. He feels fearful, guilty, panic, and traumatized by the accident. The last type is torture. He injures himself by attempting suicide. He nearly commits suicide but health workers come and deliver him to the hospital for a treat.

Tomas Eldan is experiencing post-traumatic stress disorder. In post-traumatic stress disorder, there are three causes of post-traumatic stress disorder that correspond to those experienced by Tomas Eldan. The first cause is a serious accident. He feels traumati-

zed by crashing a child (Christopher) by his car and it is a serious accident. The second cause is previously experiencing anxiety or depression. He is experiencing traumatic and depression from the accident. He always remembers the accident that makes him feel trauma and fearful. The last cause is serious accident or injury. He injures himself by attempting suicide. He nearly commits suicide but health workers come and deliver him to the hospital for a treat.

Tomas Eldan is experiencing post-traumatic stress disorder. In post-traumatic stress disorder, there are four effects of post-traumatic stress disorder that correspond to those experienced by Tomas Eldan. The first effect is self-injury. He feels self-injury, guilt, panic, and depression about the accident. The second effect is suicidal thoughts and behaviors. He hurts himself by attempting suicide and suicidal thoughts. Then, the third effect is alcohol use. He drinks alcohol because of panic and depression about the accident. The last effect is depression. He feels depression about the accident, really down, traumatized by crashing a child (Christopher), and suffer severe emotional disturbances.

In *Every Thing Will Be Fine* Movie, many things can be analyzed, in this addition is about post-traumatic stress disorder that discuss many various of types of post-traumatic stress disorder, symptoms of post-traumatic stress disorder, causes of post-traumatic stress disorder, and effects of post-traumatic stress disorder. There are many things that can be analyzed from this movie. Many positive lessons that we can take from this movie. The readers can also analyze this movie with other theories to make this analysis to be deeper and wider.

For readers, who like watching western movies, they can learn English language skill (speaking, listening, reading, and writing). Watching western movies can help to understand the characters, to analyze each scene, to educate, to get information, to get knowledge, and to get entertain.

For next researchers who are interested in literature, they should understand the literature theory that will be discussed in order to facilitate to analyzing the movie. They should read diligently many literature theories books in the library and internet sources to improve scientific knowledge about literature.
